RIWWA Meeting - March 12, 2009

Pawtucket Water Supply Board, 85 Branch Street, Pawtucket, RI

9:00 – 9:30 AM Registration and Coffee @ Pawtucket Water Treatment Plant

9:30 – 10:30 AM “Plant Tour Pawtucket Water Treatment Plant”

by: Jim DeCelles, Chief Engineer, Pawtucket Water Supply Board

The Pawtucket Water Supply Board water treatment facility was placed into service March 19, 2008. The water treatment process includes up-flow clarifiers, deep bed granulated/activated carbon filters, and ultra-violet (UV) disinfection. Finished water is stored in a 1.5 MG clearwell and 5 MG concrete storage tank. The water is pumped to the distribution system with four high-lift pumps. All finished water entering the distribution system gets treated with hypochlorite (chlorine), hydrated lime (PH control), fluoride, and orthophosphate.

**11:00 AM Business Meeting @ Pawtucket Country Club,
900 Armistice Boulevard, Pawtucket, RI**
